

# ELEONORA ZUARO

UI & GRAPHIC DESIGNER

## ABOUT ME

If I had to pinpoint when my interest for graphic design and composition started, I would have to go back a few years, to my very first camera that you could never separate me from.

This passion has evolved overtime, shaped in different ways, becoming thirst for knowledge and need to experiment. It blossomed thanks to my (often) relentless curiosity and to the many different outlets that this field allows. Determined and always looking for new inputs and thrills, I thrive and give my very best in teamwork.
